

AEROSPACE PRECISION WINDINGS

manufacturer of industrial, traditional and unique coils for the aerospace, military automotive, nuclear, medical, marine and communications industries.

Coil and flex circuit assembly

Dedicated to aerospace coil winding

Exceptional quality fine wire coils (#4 to #58 gauge)

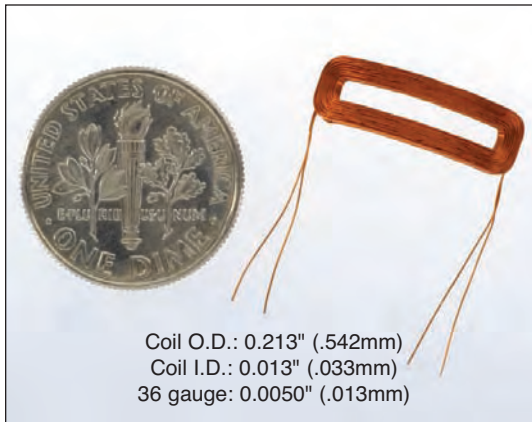

Tight tolerances for critical applications

Award-winning on-time delivery

AEROSPACE PRECISION WINDINGS (a division of Classic Coil Company)

AEROSPACE/ MILITARY FINE WIRE APPLICATIONS

- Guidance Systems
- Navigation Systems
- Accelerometers
- Night Vision
- Space Tactical
- Flight Control
- Gyroscopes
- Military Controls
- Sensors
- Fire Control

QUALITY AND PERFORMANCE

- ISO 9002/2000
- Numerous awards for quality and on-time delivery
- NASA certification
- Certified as a Dock-to-Stock Kanban supplier
- Computer-aided LCD vision metrology inspection procedures
- Fast turnaround prototype shop
- More than 40 years of coil winding experience

Precision winding techniques performed with the aid of a microscope.
